## General Information

The music used in the reel is track 03 "The colony" from the soundtrack "Antz" by Harry Gregson-Williams and John Powell.

Most AnimationMentor.com work was done next to a full-time job and under very tight deadlines. The characters were modeled and rigged by AnimationMentor.com.

## *Catch of the Day* - Preview

The included preview of my short film was entirely created by me (animation, modeling, rendering, story) with the exception of the music and the main character model (provided by AnimationMentor.com). The production of the entire short took 11 weeks in total.
